#### STEP 2: COMPLETE REQUIRED FORMS ACCORDINGLY

All required medical forms can be found on the [Required Forms After Appointment webpage](#) on VMI.edu, and these forms will also be mailed to each conditionally appointed applicant.

#### IMPORTANT NOTES:

- **Submission of all VMI medical forms is required before a medical decision can be rendered and a full reservation obtained.** Do not delay on setting up an appointment with your health care provider to complete the required forms. Completed medical forms are reviewed by the VMI physician for a medical decision.
  - If it is determined that you do not meet VMI fitness standards, your \$300 deposit will be refunded.
- Each item on ALL forms MUST be completed, and any positive answer on the online "VMI Health History" or "Physical Examination Form" must be fully explained. This is necessary not only for evaluation of your ability to meet VMI fitness standards, but also to assist our Infirmary Staff should you become ill or injured during your cadetship.
- Failure to report previous physical ailments or defects will be grounds for termination of your cadetship with forfeiture of appropriate tuition and fees. Additionally, a cadet who, because of a recurrence of a pre-cadetship disorder, is not able to participate fully,

safely, and successfully in all aspects of cadet life will be re-evaluated to determine his or her suitability to continue as a cadet.

- Similarly, providing inaccurate or misleading information on any medical form is a basis for denial of admission at matriculation, and termination of your cadetship if discovered in later years.
- It is your responsibility to report any new illness or injury that occurs AFTER submitting your medical forms.

    2. If you ARE covered by your parent's policy, check to make sure your current plan provides coverage while you are at VMI. Frequently, HMO type plans require referrals from Primary Care Physicians or care from an in-network provider which may not be possible while you are at VMI.
